MADIERA FACTS

Madeira receives Portugal's highest quality ranking of DOC. Madeira is one of the three best known fortified wines, the other two being Port and Sherry.

From Portugal's Madeira Island. Portuguese founded this heavily forested island thus named it Madeira which means wood or timber. Madeira is a very volcanic island in the Atlantic Ocean 400 miles off the North African coast.

By law 85% of grape listed on label must be used. If label states Sercial Style or Boal Style it can contain less than 85% and it will most likely be blended with Tinta Negra Mole

Madeira is unique that it gains flavor from elements that ruin most other wines (heat & oxidation)

Estufagem: This is the process where wines are placed in heated rooms or heated tanks (estufas) for a minimum of 90 days where they bake slowly. Finer madeiras are aged in wooden casks and left in attics or extremely warm areas for years. The wood aging develops tangy burnt caramel slightly bitter flavor.

Madeira ranges in color from pale blonde (Sercial) to deep tawny (Malmsey).

Fortified with usually 18% - 20% alcohol

There are four different white grapes that are used for making Madeira each with a very different style.

1. **Sercial** (ser shuh) pale, golden color, perfumy, lightest and driest
2. **Verdelho** (verh deh yoh) This is the most widely planted grape on Madeira. Medium dry, sweeter and stronger than sercial. This grape is also used in the production of white port. Rainwater is a soft medium dry verdelho. This achieved its name from the barrels of madeira waiting on the island beach for pick up being diluted from rainwater, thus diluting the alcohol making this less potent.
3. **Boal** (Boo ahl) Fuller, sweeter, richer, typically used as dessert wine
4. **Malmsey** (mahm zee) also referred to as Malvasia. Richest, darkest, sweetest.
